

# DONZI

## INTRODUCING THE DONZI 35 ZR 009 LIMITED EDITION

*The 35 ZR 009 has been designed with a no-nonsense approach sure to resonate with performance enthusiasts. By employing a custom, lightweight racing cabin and eliminating non-essential components, the boat's center of gravity has been moved aft and weight has been reduced. This reduction and reallocation of non-structural weight has resulted in enhanced performance, a more agile feel, and near-perfect balance, making the 35 ZR 009 a true "driver's boat."*

*Visually, the 35 ZR 009 offers the sleek lines and dramatic stance of Donzi's 35 ZR, plus the added appeal of limited edition exclusivity; vintage throwback racing graphics; and special touches throughout. Only twelve 35 ZR 009s will be made, making this special commemorative model a true collector's item.*

---
